

EDUCATIONAL TOURS

expERIENCE fun and learning ...

with a field trip to the expERIENCE Children's Museum!

Bring your group and visit all of the Museum at your own pace or add an age-appropriate guided tour from the three offered. Tours are scheduled Wednesdays through Saturdays 10am-4pm or Sundays from 1pm-4pm. You can even bring your lunch and gather in the loft.

Self-guided – tour the entire Museum and visit all the exhibits at your own pace (1.5 hours average).

Guided – in addition to your self-guided tour, a Museum staff member will spend in-depth classroom, experiment and exhibit time with your group at one of three exhibits (2 hours average). Best for groups under 30 children. *Teacher resource guides are available. Please call us at 814-453-3743.*

• PAPERMAKING WORKSHOP *(Kindergarten and older)*

During a visit to the Museum, your students can participate in a short workshop on handmade paper. Each student will learn the process of papermaking – from a tree in the forest to the paper we use every day. They will experience paper in it's liquid form (also called "pulp") and learn hands-on how to turn it into their very own piece of paper.

• CIRCLES & CYCLES: Non-Point Source Pollution

THE LAKE ERIE WATERSHED AND ME *(2nd Grade and older)*

With the help of a Museum staff person, children will explore the causes of non-point source pollution, how they affect it and ways to help prevent it. Extra time is needed for this tour.

• LECOM: The Healer Within *(3rd Grade and older)*

Jump inside the human body to experience what a cancer cell looks like; help the healthy blood cells make it through the blood stream; see how your bones and muscles work while cycling a bike. These are just a few things your students will do at The Healer Within exhibit. Visit five stationary exhibits to learn how the human body works and how to stay healthy.

Please print and check boxes for your preferences
